

Become The Leader Every Organisation Needs

LIZ WISEMAN'S

MULTIPLIERS[®]

HOW THE BEST LEADERS IGNITE EVERYONE'S INTELLIGENCE

What's Holding Your Team Back From Better Results?

In times of uncertainty and pressure to perform, this question is more urgent than ever. Leaders today face real and complex challenges:

- We need to grow, but we can't hire.
- We're asking for everyone's best, but people are burned out.
- We're succeeding today, but not ready for tomorrow.
- We have top talent, but they're not fully engaged.

Introducing Multipliers: How the Best Leaders Ignite Everyone's Intelligence

IISA, in partnership with FranklinCovey, is proud to offer our professional members access to the powerful **2-Day Multipliers Leadership Workshop**.

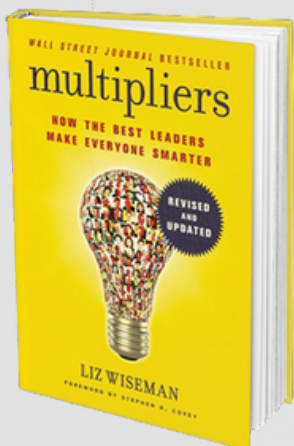

Great leaders don't have all the answers, they bring out the brilliance in others. The Multipliers program helps you shift from unintentionally diminishing your team's contributions to becoming the kind of leader who amplifies intelligence, creativity, and performance

Multipliers know how to:

- Unlock hidden talent
- Spark innovation and bold thinking
- Reignite energy and engagement
- Deliver stronger, more sustainable results

Who Should Attend?

This program is ideal for senior leaders and managers who want to elevate their leadership and accelerate business results.

“Multipliers liberate people from the oppressive forces within corporate hierarchy. They liberate people to think, to speak, and to act with reason. They create an environment where the best ideas surface and where people do their best work. They give people permission to think.”

-Liz Wiseman

MULTIPLIERS[®]

Workshop Modules

Module	Outcomes
Day 1	
THE MULTIPLIER EFFECT	Understand the difference between Diminisher and Multiplier leaders, reflect on how each has shaped your career, and identify well-meaning behaviours that may limit others. Spot your own Accidental Diminisher habits and learn how to shift them through self-awareness and habit change.
ASK BETTER QUESTIONS	Make the shift from needing all the answers to asking the right questions, learn to use purposeful questioning to unlock others' thinking, practice active listening to value input, and commit to actions that create more Multiplier moments at work.
LOOK FOR GENIUS	Participants will learn the Genius principles, shift their mindset from seeing genius as rare to recognising everyone's natural strengths, practice spotting others' genius and naming their own and commit to actions that bring out the best in their team.
CREATE SPACE FOR OTHERS	Shift from pushing for results to creating space for bold thinking. Learn to balance your input as a leader, foster a safe environment for ideas and learning, and commit to actions that give others room to grow.
Day 2	
OFFER BIGGER CHALLENGES	Shift from the Diminisher mindset of giving directives to the Multiplier mindset of encouraging others to stretch beyond what they know. Reflect on past challenges, practice framing goals as challenge questions, and commit to actions that inspire greater effort at work.
DEBATE MAKER	Participants will shift from the Diminisher mindset of giving answers to the Multiplier mindset of encouraging shared thinking and debate, they will also practice framing key issues to invite diverse perspectives through structured debates that deepen thinking.
MULTIPLIERS IN ACTION	In this section, participants will hear real stories from people adopting Multiplier behaviours, identify and prioritise actions to create Multiplier Moments in their roles, and commit to running Multiplier Experiments with their teams to apply what they've learned.
